MY BANDITS OF INDIANA TO BE TRIED.

ATTEMPTED BANK ROBBERIES
AND MURDER IN TRUE JESSE
JAMES STYLE.

DAYTONA, Ind., Feb. 5.—The trial of John J. Hoel, the youthful bandit who attempted bank robberies and committed murder in true Jesse James style, and this notwithstanding the fact that he never read dime novels, began today at the Harrison circuit court which adjourned here Monday. Since his sensational arrest in the middle of the trial after last November the youth has been confined in the reformatory at Jeffersonville awaiting trial. He was displayed when first behind prison bars has long since deserted him and he is looking forward to his trial with a full realization of the fate that probably awaits him.

Hoel will be tried for the murder of J. Henry Fawcett, who was the manager of the Merchants National bank of New Albany. On the morning of November 11, the young bandit entered the bank and after commanding everybody to throw up their hands and "get in the vault," began shooting.

Fawcett died almost instantly, being shot through the neck. John K. Woodward, president of the bank, was also shot and dangerously wounded. Following the shooting the murderer rushed from the bank and tried to make his escape in an automobile which he had taken from the curb in front of the residence of the owner. He commanded the negro chauffeur at the point of a gun to drive him down the street at top speed. But the chauffeur, paralyzed with terror and incapable of action, sat still. Hoel jumped from the car and sent a bullet through the negro's body.

Turning down the river bank, a distance of several blocks, the murderer fled with great speed. He quickly appropriated a skiff at the dock and was on his way to the Kentucky side when the startled citizens of New Albany knew what had happened. An alarm was given through a megaphone and a crowd of boat and in a short time the police had started in pursuit in the motor boat, had captured their man and brought him to shore, only to be confronted with the new peril of a bandit.

By a clever ruse the police stood off the crowd that surrounded the skiff as the boat landed. Commanding the prisoner to lie down, the police announced the man had taken poison and was dead, meanwhile carrying him to the patrol wagon and giving the word to drive ahead. The bandit was taken to the New Albany jail. A few moments later to escape the mob, he was removed to the reformatory at Jeffersonville.

Hoel, who was but seventeen years old, is the son of a furniture dealer at Louisville. The family formerly lived in Knoxville, Tenn. The father and other members of the family have retained counsel and will use every effort to save the young desperado from the electric chair. It is probable that the defense will be based on a plea of insanity.

MISSING MAN WAS FOUND LAST NIGHT.

SPENT ALL NIGHT WITHOUT
SHELTER ON THE PENINSULA,
THREE MILES, SOUTH OF THIS
CITY —SEEMS NONE THE
WORSE FROM THE EXPERIENCE

John Searles, the old gentleman announced in yesterday's Daily News as missing, was found in an almost miraculous manner by his nephew, J. F. Searles, last evening.

As stated yesterday, the old gentleman who is spending the winter with his nephew, J. F. Searles, and wife, in the Van Dorn cottage on West Volusia avenue, started out for a walk about nine o'clock Thursday morning, saying he was going to the ocean beach. Mrs. Searles asked him if he would be back to dinner and he replied that he would probably not return until evening.

When he did not get back by dark they grew anxious about him and Mr. Searles started out to look for him.

The only definite information he obtained was from the toll keeper of the South Bridge, who said the old gentleman had passed there at about ten o'clock on his way to the beach, but had not returned.

A colored man thought he had seen him on Keating's pier later in the day and possibly this may be so, and that on returning he passed the entrance, from the beach, to Halifax avenue, and continued south.

The lost man himself says he could not find the road across the peninsula when he started home, and after walking for some distance he became tired out and very thirsty. He walked into the ocean and drank heartily of the salt water, getting wet to the waist in so doing.

He then made his way up the bank and some distance into the scrub palmetto and lay down to rest and slept, it then being just about dark. He remembers being awakened by the rain which fell just before midnight, but he was probably in a state of mild delirium from the exposure and salt water he had taken and did not realize anything very clearly. He remembers of being fearful of meeting with rattlesnakes, but he had lost his stick and concluded he would have to take his chances with the reptiles.

His nephew says that when he found him he looked like a wild man from Borneo, being soaking wet, covered with sand, his face bleeding from cuts he had received on the sharp edges of the saw palmettos and his mouth covered with froth or foam from the sea water he had drunk.

The manner of his finding was most strange. The young Mr. Searles was searching for him on his bicycle and when, he thinks, fully three miles south of the automobile clubhouse, felt impelled to dismount and explore the scrub growth of the peninsula. When he had penetrated almost half way across the peninsula he called aloud for his uncle and the old gentleman arose from the bushes near at hand.

After getting his uncle back to the beach Mr. Searles was in a quandary as to how to get him home, but a party in an automobile came along and kindly relieved him of his charge delivering the old gentleman to his home on West Volusia avenue. The people in the auto would not give their names, but both the younger Mr. Searles and his uncle express themselves as deeply grateful for their kindness.

When seen last night by a Daily News reporter, the old gentleman was toasting himself beside the stove, in a full change of clothing, and seemed little the worse for his trying experience and exposure to the elements. Had the night not proved much milder than usual he might have perished.

CLARENDON PROPOSITION

NOW NEARLY FINANCED.

BUT \$12,000 WORTH OF SEVEN PER CENT. BONDS YET TO BE SOLD.

Whether the Clarendon will be rebuilt now depends on the people who live and sojourn in this community. The proposition has been financed with the exception of \$12,000 of seven per cent. bonds which are yet to be sold. This looks easy, but it isn't. All the wealthy men who feel like investing in large amounts have already done so and it now remains to dispose of the balance of the bonds in small blocks and it's time for those who want to see The Clarendon rebuilt to take notice.

SEXTUPLE MURDERER NEARS HIS END.

RICHMOND, Va., Feb. 5.—Unless another reprieve is granted, which is considered unlikely, tomorrow will be the last Sunday on earth for Howard Little, who was convicted of the murder of the Justis family in Buchanan county last September. The sextuple murderer is to be put to death in the electric chair in the State prison here on Friday.

5,000 MEN WORKING ON STREETS OF PARIS

PARIS, Feb. 5.—The total fall of the Seine today is 10 feet, 6 inches. While hundreds of basements are filled with water, the streets are practically free. Five thousand men are working on the streets and sewers.

The loss in Paris is now estimated by the government officials at \$180,000,000. In other parts of France \$70,000,000 loss has been sustained, and the interruption of business will bring the total far above these figures.

DISTRICT ATTORNEY WILL PROTECT COURT VICTIMS.

NEW YORK, Feb. 5.—District Attorney Whitman, of this city, has established the novelty of having his office act as attorneys for the defense as well as the prosecution, and will place an assistant from his office in each police court to protect victims and see that no one is held without legal grounds, thereby reducing the number of cases in the upper courts which result in dismissals. He says this action will save money by eliminating unnecessary trials. Similar action in other large cities is expected.

A GOOD LAUGH ON A LOCAL DECON.

A prominent fruit juice company is a great advertiser, and is right to the front with its goods — too much so in fact, sometimes, as a worthy deacon of one of our churches will tell you. Mr. Blank went to the postoffice one morning this week expecting his usual consignment of church literature. He noticed a rather unusual manner in the clerk who handed out the mail, and there was quite an audible titter in the office which called the attention of several bystanders to his mail. On examination the deacon found this same fruit juice company was presenting him with the compliments of the season in the form of a handsome patent corkscrew. Of course the deacon didn't recognize the instrument.

PRINCIPAL FEATURES OF PROPOSED NEW ARMY BILL.

WILL PROVIDE FOR SIX NEW REGIMENTS A YEAR AND OTHER CHANGES.

WASHINGTON, Feb. 5.—The United Press is able to give today the principal features of the forthcoming reorganization. Changes will be presented to Congress in a special bill, accompanied by a presidential message. It will recommend five new regiments a year, doing away with various small departments and the concentration of the army in the zones, and the training of the national guard with the regular army. The report severely censures the present system.

ARMY MEN OFF FOR THE PHILIPPINES.

SAN FRANCISCO, Cal., Feb. 5.—The nineteenth infantry, together with a large number of other military passengers, sailed for Manila today, on the transport, Sheridan.

OBSERVE MOODY'S BIRTHDAY AT NORTHFIELD, MASS.

NORTHFIELD, Mass., Feb. 5.—"Founders' Day," the anniversary of the birth of Dwight L. Moody, the famous evangelist, will be observed by the faculty and hundreds of students of the Moody schools. Memorial exercises will be held tomorrow in Moody Memorial church.

LOCATION OF BIG FIGHT DEFINITELY DECIDED ON

SAN FRANCISCO, Feb. 5.—The Jeffries-Johnson fight will positively be held here according to a telegram from Jack Gleason, from Missoula, Montana, today.

He says Rickard has acquiesced in the plan and will meet him Monday to complete arrangements.

WRIGHT BROTHERS ARE NOT RIGHT AFTER ALL

WASHINGTON, Feb. 5.—Answering the suit for infringement of patents brought by the Wright Brothers against Ralph Saulnier, owner of a Bleriot Monoplane, Saulnier's counsel today declared the Wright patents inoperative because they cannot fly in the machine built according to their specifications. The machine in which the Wrights fly, he says, is totally different from the one on which they secured patents.

AUTOMOBILE PARTY IS PLANNING ANOTHER TRIP

Mrs. E. E. Burns and her cousin, Miss K. Haeker, who recently returned from a tour to Jacksonville by way of Tampa, in Mrs. Burns' E. M. F. Car, with Earl Williamson as driver, are contemplating a similar trip to Miami next week.

On the past trip which took them nine days, they found the roads in very fair condition and had a very enjoyable tour. They went to Tampa by way of DeLand, Orlando and Bartow, and on the return visited Ocala, Gainesville, Jacksonville and St. Augustine.

Mr. Williamson has a map of the route to Tampa, issued by the automobile club of that city, which he will be glad to submit to any parties contemplating the trip, and also furnish them with any information which might be of assistance to them.

CHICAGO'S BIG AUTOMOBILE SHOW OPENS.

\$100,000 SPENT ON DECORATIONS
ALONE — 250 MANUFACTURERS
ARE REPRESENTED IN THE
DISPLAY.

CHICAGO, Feb. 5.—Chicago's ninth annual automobile show, representing the results of months of hard work on the part of manufacturers and dealers and the expenditure of nearly \$100,000 in decorations alone, was opened to the public today, to remain the center of interest for automobile enthusiasts during the whole of the coming week.

The Coliseum, the Coliseum Annex and the First Regiment Armory house the show, which comprises the most magnificent exhibition of automobiles and accessories ever assembled here. The show is the only large exhibition to be held in America this season in which manufacturers of licensed and independent cars display their products under the same roofs. Two hundred and fifty manufacturers are represented in the display of motor cars, motorcycles, parts and accessories.

The decorative scheme adopted this year is as unique as it is pleasing. The Coliseum, which is the main exhibition hall, has a forest setting, with giant pine trees and a wealth of magnificent foliage. The Coliseum Annex has been fitted out as a rose garden, while a rustic atmosphere has been provided for the First Regiment Armory.

ALLEN'S MINSTREL SHOW DREW LARGE CROWD.

A. G. Allen's minstrels gave an excellent performance here last night in their big tent pitched on the show grounds just west of the depot.

The popularity of this minstrel troupe was shown by the fact that notwithstanding the chilly atmosphere without, there was no frost in the tent, the performance being well patronized by an appreciative audience. No doubt the tent would have been over crowded had better weather prevailed.

Allen's Minstrels have showed here several previous seasons and always to good crowds, the big canvas theater being filled to its utmost capacity.

HOBBLING ON CRUTCHES AT NEW ORLEANS.

NEW ORLEANS, Feb. 5.—Six races ranging in distance from five to twenty-five miles, are to be decided in the Mardi Gras race meeting here today. Motorists from all over the land are here, including Ralph De Palma, the famous track and road racing driver, who makes his first appearance in competition since one of his legs were broken on a race track in Danbury, Conn., last summer. De Palma is still hobbling around on a cane.

BILL INTRODUCED TO ADD ADDITIONAL ARMY OFFICERS.

WASHINGTON, Feb. 5.—Regular army commissions for National Guardsmen is provided for in a bill introduced today by Senator Cummins. It provides for 675 additional officers to the Regular Army and the President is empowered to appoint one-third of each grade in this increase from those who have been National Guard officers for at least ten years.

Mrs. Sparkman and Miss Bryan, sisters of Mrs. T. F. Williams, who have been visiting her, left in company with Mr. Williams yesterday afternoon for Sanford, by automobile. Mrs. Sparkman continued her journey to Tampa, her home town. Miss Bryan will return here with Mr. and Mrs. Williams and the children today or tomorrow.

BATTLE TODAY IN CAPITAL OF NICARAGUA.

REVOLUTIONISTS ADVANCING ON
THE CITY OF MANAGUA AND
WILL PROBABLY ARRIVE BEFORE
NIGHT.

BLUEFIELDS, Nicaragua, Feb. 5.—Dreading that the great battle of the Nicaraguan revolution may be fought today in Managua, the capital, the administration army has been falling back though fighting desperately since the revolutionists began to advance from Acopya. The revolutionists are now but twenty miles from the capital and reports say that they have been successful in fighting ever since the advance begun. It is expected that they will reach Managua this afternoon.

NEW TARIFF BILL PASSED BY GERMAN REICHSTAG.

GRANTS CONVENTIONAL TARIFF
TO THE UNITED STATES IN RETURN
FOR AMERICAN MINIMUM.

BERLIN, Feb. 5.—A bill embodying the new tariff arrangement with the United States was passed by the Reichstag today. The bill grants the conventional tariff to the United States in return for the American minimum.

FIFTEEN PRETTY GIRLS WILL SING TUESDAY.

The fifteen chorus girls with the Manhattan Opera Company which will sing "Fra Diavolo," at the opera house on Tuesday night, February 8, are said to be the prettiest girls that have appeared in the South this season with a musical show. The Manhattans always did carry a good company and according to the Jacksonville Times-Union the Manhattans of 1910 are better than ever. It has been a long time since Daytona has heard a company of the calibre of the Manhattans and credit for bringing this excellent company here belongs to Messrs. Snead and Weitz. It is expected that the patrons of the theatre will rally to the support of the theatre management and through their patronage of the opera prove to the theatre management that their efforts to give the Daytona people something good are appreciated. No company ever received the flattering notices from the Southern press as have the Manhattans and their appearance here will be the signal for a warm reception to Mr. Snead's artists.

BASE BALL GAME NEXT WEDNESDAY.

Among the amusements offered the public next week will be a base ball game between the Daytona team and the Rollins College club. This game will be played Wednesday afternoon at Harrison's Park, and should form quite an attraction for many of the visitors in the city who are interested in the national game.

One of Daytona's crowning glo-
ries is her incomparable beach. No
one who ever set foot upon its
smooth, packed sands; no one who
ever pedaled a bicycle over its ex-
panse; no one who ever drove a
prancing pair of horses and listened
to the popping of their steel shoes
upon its asphaltum-like face; no one
who ever steered a high-power au-
tomobile down the broad stretch of
wave-washed and surf-packed sand
but realized that it is a world-beat-
er, a world-wonder. Go stand upon
this wide speedway and see the hap-
py souls flit by in joyous mood, and
answer whether this is not one of
the seven modern wonders.

The Placid, Pellucid Halifax River.
Where think you is water with more
picturesque surroundings? Nearly a
mile wide, fringed with tropical vege-
tation, artistic cottages with roomy
verandas looking out upon her bosom,
gamey food fishes in countless num-
bers beckoning, as it were, to those
with rod and reel; her bosom flecked
with duck and coot and snowy-
winged sea birds, which sit about as
if for the sport of bobbing upon the
waves; watch that lubberly old
white headed pelican pouch a fat
mullet, and that fish hawk struggling
upward with his floundering load he
snatched from the water.

See the beautiful launches, spick
and span, their hampers and lockers
bulging with refreshments both solid
and liquid ready for a cruise upon the
beautiful surface. Take out your fiel
glass and sweep the river from
Ormond's bridge to Ponce Park
light house, then say whether the
Halifax isn't a thing of beauty and
a joy forever, and one of the modern
wonders.

The Enchantingly Picturesque Ridge-
wood.

Ridgewood avenue is upon the crest
of a broad ridge, straight as the crow
flies and the wide-spreading branches
of the heavy-trunked live oaks ex-
tend their giant arms across the mag-
nificent vista, forming an arch, and
from these extended arms great fea-
sons of Spanish moss sway as the
trade winds from the tropic seas
fan them. Looking straight ahead
down this white shell street one has
the impression of a fairy path with
draperies, but as you move
along and cast an eye first to the
right and then to the left you see dis-
tinguished cottage homes in the most
delightful settings.

See the glistening leaf of the grand
magnolia which nature has varnished
as no artists' brush ever could; and
the cabbage palms with their burdens
of showy fruit and swaying palms;
see the lovely holly with its exqui-
site berry; see the climbing vines
run riot in the trees; see the cryp-
togramous forms which gain a foot-
hold on the great oaks and stately
palms, and surely you will join in
the chorus and say that this is a
world wonder for beauty.

Surpassing Beauty of Our Cottage
Homes.
No one of Daytona's attractions,
perhaps, commands more nearly un-
iversal attention and praise than does
the artistic cottages. The owners of
these charming villas hail from every
corner of the country and they bring
their own architectural plans and
build upon them, and, as the archi-
tecture of one section of the country
differs from the architecture of another,
so do our homes differ in outward
appearance and structural beauty from
one another. There are no monotonous
rows of strikingly similar build-
ings but the eye, as it sweeps by, is
treated to a kaleidoscopic change
which keeps the mind wondering,
"What next?"

It is not only the exterior of many
of these homes which rivets atten-
tion; within they are models of con-
venience, and the finishing and fur-
nishing give evidence of the elegance
and cultivation of those who worked
it all out. Indeed, it is the interior
arrangement and artistic furnishing
and shading, more than the exterior
appearance that gives a surpassing
charm to Daytona homes. This fea-
ture justly merits prominence as an-
other wonder.

Streets and Pavements the Most
and Best.

Why the Architect of the Universe
chose to give Daytona the most ad-
mirable, the most picturesque natural
setting of all the cities of the South
is not revealed, but that such is a
fact must be apparent to the most

superficial observer. With such lav-
ish wealth of natural beauty it be-
came an easy thing for the hand of
man to give the finishing touches
which have wrought out the colors
and outlines of the big picture.

Man did all this in the laying out
of the streets with their wide margins
of parkage. The entire city becomes
a great park, with driveways inter-
secting miles upon miles of drive-
ways so good as to attract motorists
from all over the continent.

And as for the pavements, pave-
ments that look and act like granite,
—where else between the eastern
and western seas are so many miles
in proportion to inhabitants? The
pavement question stands with the
street as one of the chief drawing
cards. Till some unheard-of
place reports more and better, Day-
tona throws down the gauntlet to the
world.

Squirrels, Flowers, Birds and Frut.
Whatever oone's shortcomings and
however indifferent or even callous
one may be to many things, the mere
mention of "flowers and Squirrels,
birds and fruits" will send a thrill
that is reflected in distended pupils
and pricked ears.

For every visitor with a spare gob-
ber there is a bunny ready to come
and accept your gift. He will sit bolt
upright and know into the meat,
casting furtive, saucy glances at you
meanwhile.

Flowers. Usually fresh and bloom-
ing the year 'round you are reminded
of Goldsmith's couplet where
Smiling spring its earliest visit paid
And summer's lingering blossoms
are delayed.

In one yard roses of variegated hues
predominate; another household has
a penchant for the poinsettia and the
premises are aflame; another is hid-
den in a jungle of tall cane. Variety
is the spice of life and here is where
you find it.

The birds flit in, and with their
joyous notes help to give fullness
and symmetry to the picture.

As for fruits, choice citrus fruits,
Daytona yields the palm to none for
quality and quantity per acre. There
are scores of citrus groves in prox-
imity to the city, branches bending
to the earth with their burdens of
luscious golden globes, which for
beauty, prolificacy and all desirable
qualities would truly astonish you.

The Fastest Ayles and The Finest

Out.
The seventh wonder, do you
ask? Come, whether from Missouri
or from Maine, from Kalamazoo or
Timbukto, and you will be "shown."
Here is where the world's record for
speed is broken with every recurring
season. Autos, the biggest, the fast-
est, and the finest are on daily parade
and the big show is as free as the
pure artesian water from the thous-
ands of flowing wells. It is a con-
tinuous show with constantly shift-
ing scene.

Everything goes, from a 2-horse
power, up to a 200-horse power, and
all degrees of speed from acanter to
a two-mile-a-minute clip. You will
probably catch the spirit, when you
do the roads and the beach are yours.
The Florida sunshine is free, the
balmy ocean breezes are free, the
birds and squirrels and flowers are
free, the sparkling fountain water is
free and you will have to go down in-
to your wallet only for coin for auto,
and bed and board.

This is no fanciful picture; it's all
here. It is drawing other thousands
and holding them enthralled, it will
charm and hold you. Come and see.

PROGRESSIVE NEW SMYRNA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in state-ly grandeur during the lapse of by-gone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the State of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the State is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

New Smyrna has no bonded indebtedness and the tax levy is low.

A point that no tourist should fail to visit is the ruins of the Old Spanish Mission which stand somber and alone about one and a quarter miles southwest of New Smyrna. A good road leads to the place and the trip can be easily made by an automobile. Silent in the great pine flats by the margin of the forest, is this place of pilgrimage for the pious; this rendezvous for the picnicer. The ruins are extensive, and while there is no authentic history of their origin, it is presumed that the Mission was built by the Franciscans in the days when the once powerful Kingdom of Spain first planted its flag upon what is now American soil. It was built of coquina, the roof being of the same material, cut into thin slabs and covered with cement plaster. Extensive gardens surrounded it, which were enclosed by a stone wall, portions of which still remain. Visitors usually come in parties merry and curious but the spell of the place soon falls upon them and they separate to sit alone, silent and meditative, under the arches or beside the ancient well.

CORONADO
Is situated on the peninsula opposite New Smyrna and is connected by a good road and bridge over the deep current of Indian River. Here you can put aside your conventional garb, breathe in large and deep the salty tonic of the sea and enjoy yourself to your heart's content with rod and reel in row or sail boat or in the ocean surf a short half-mile away. The great varieties of fish inhabiting the river and lagoon pass through the channel from the sea beneath the bridge. From verandas, upper balconies and windows you behold the magnificent river, the distant lagoons and islands, the forest-covered peninsula and the vast reaches of the Atlantic Ocean.

HAWKS PARK
A pretty village located along the ridge above the Indian River two and one-half miles south of New Smyrna and connected with fine shell roads. There is the appearance of newness, comfort and seclusion about the place which stamps it as the abode of people who come here to enjoy the blessings of outdoor life away from places where crowds are apt to gather.

LAKE HELEN
Surrounded by several pretty lakes and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY
The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to Deland. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

Captain Sam J. Wolf, of Key West, has been commissioned major in the Florida State Troops, and assigned to the command of the Second Battalion, Second Infantry, to succeed Major J. D. C. Morris, of this city, who some time ago resigned.

The Family Pair.

The wriggly stillness of the study period was broken by a slamming door, and a thin boy in dirty, ragged clothes slouched across the room. Halfway to the teacher's desk he drew, "Pa wants that you should let Jim go home right now." As Miss Davis looked a little doubtful, he added, "He kin come back right away."

The permission given, the two badly soiled, half starved sons of the most shiftless family in the district shuffled down the stairs. Very shortly Jim returned, wearing a pleased and important smile on his pathetic little face.

"I come as soon's I could. Pa's brother's dyin' to Poplar," he announced cheerfully. "That's why pa wanted me."

"But you weren't gone long; you didn't stay home. I can't see why you went at all," answered the bewildered Miss Davis.

"Why, pa's goin'," explained Jim. "Yes, but what has that to do with you?" asked the teacher.

"Pa had to have his suspenders," was Jim's matter of fact reply.—Exchange.

GOVERNMENT TO INVESTIGATE LOST SHIP, KENTUCKY

NEW YORK, Feb. 5—While the Balory liner, Alamo, is speeding down the Florida coast to Key West with 47 members of the crew of the Alaska Pacific company's steamer, Kentucky, rescued last night off the Carolina coast from the sinking ship, government officials are preparing to begin an official investigation of the clearance papers of the lost vessel. That the Kentucky was unfit to start on a 20,000 mile voyage from New York to Seattle is the contention of shipping circles here today. Serious consequences are expected for those responsible.

Judge Henry T. Titus Candidate for Mayor of City of Daytona

THE PLATFORM HE STANDS FOR

The prosperity and welfare of the entire city.

Justice to all in Municipal Court, regardless of standing, class or color.

Believes in disposing of misdemeanors in the city court, and placing all fines to the city, rather than encourage the cases being turned over to the State and County officials.

Believes that the city should use every means to have the deplorable streets placed in No. 1 condition, and thus maintain Daytona's reputation of the past—that

of having the best streets of any city in the State.

Believes the city should build a side-walk from Mid-

way to Waycross, on Second Street, for the benefit of the colored school children.

Believes in the strict enforcement of all sanitary laws.

Pledges himself to use every effort to bring about a change of the City Charter, for the express purpose of raising the millage and lowering the valuation of all city property so as to protect the valuations of city property from the State and County assessment.

Believes in the continued improvement of the City Island for a public park.

Heart to Heart Talks.

By EDWIN A. NYE.

DIVORCE ORPHANS.

Not long ago the little eleven-year-old daughter of William K. Vanderbilt, Jr., broke her arm.

The fracture was such that for a time amputation seemed necessary. The little one suffered very much and cried out for her papa, of whom she is very fond.

On account of a pending divorce the father could not go to the child, who suffered a double pain from her broken arm and the absence of her father.

"Be brave, papa is waiting you through the telephone."

That was all. And, poor comfort as it was to the little daughter, the father doubtless suffered as much as the child.

Poor divorce orphans!

They cannot understand why papa and mamma should be apart. They usually love both parents dearly. Pain comes early to their childish hearts.

These children know something is wrong, but they are too young to comprehend what it means. When their playmates say, "My papa or mamma is in heaven," what can the poor divorce orphans say?

There is little Alice Astor.

She is the baby daughter of Colonel and Mrs. John Jacob Astor, recently divorced. The decree gives the father possession of the son and the mother of Alice.

Alice will have beautiful clothes and all the luxuries, but can any new papa ever take the place of her real papa?

Is it not really sadder to know that one's father or mother is living and not to know where than to lose that loved one by death or to know where the parent lives and be denied companionship?

Poor little lads and lassies! There are asylums built for the orphans left helpless by death. Shall there be asylums built for the more unfortunate?

Poor divorce orphans! Their fate is both pathetically sad and irretrievably hopeless.

Buying in His Note.

Colonel Bill was a pioneer legislator, merchant and banker of the vest pocket variety.

It was seldom that Colonel Bill got caught by a debtor, so unerring was his judgment of men, but his transaction with old man Blankerton was an exception to the rule. Blankerton got into Colonel Bill's ledger to the amount of \$60 and finally balanced the account with a note.

When the paper was a long time overdue and there was no prospect of a settlement, to the eminent disgust of the colonel, he declared, with a strong Anglo-Saxon emphasis, that he would sell Blankerton's note for 50 cents on the dollar. The statement was not long reaching the ears of the maker of the note. He met the colonel in the village street one day and accosted him:

"Bill, heard you'd offered to sell my note for 50 cents on the dollar."

"Yes; I will."

"Will you sell it to me at that rate?"

"Yes, sir; I'll sell it to you at that rate."

"All right, Bill; make out a new note."

Colonel Bill's symptoms of apoplexy became noticeable from that moment. —Chicago Record-Herald.

The Child Actors entertained at The Despland Friday evening and realized a handsome collection.

The Allen touring party, who have been at The Austin for a week, left Tuesday morning on the Floridian for St. Augustine.

The guests of The Ridgewood were entertained Wednesday evening with a progressive 500 party. Four handsome prizes were awarded to those holding highest score and the remaining players each received a prize from a grab bag which afforded great amusement and all enjoyed a pleasant evening.

Miss Belle Mc Cord, a season guest at The Despland, gave a delightful party Friday evening to a party of ten, guests at The Despland. The two prizes were awarded to Mrs. Slatmeyer, of Cleveland, and L. M. Waite, respectively. Refreshments were served at the hotel after the game.

A card party on Tuesday evening was a pleasant social function of the week enjoyed at The Austin. Eight tables were set, and after the game light refreshments were served. The three ladies' prizes were won by Mesdames Willie, Geo. Rappole, Mabbetty. The gentlemen's prizes were won by Messrs. Rappole, Moore and Allen.

Yesterday was a busy one for the guests of the Prince George. In view of the poor weather the orchestra gave an extra concert in addition to the regular offerings. In the afternoon a bridge and euchre was held. Mrs. A. W. Kirk won the first prize at the bridge tables with Mrs. A. W. Gabeler second; gentlemen's first prize went to Mr. Hamnett. Mrs. Prescott was the winner at euchre with Mrs. DuBrue second. The final of the gentlemen's pool tournament was played off, D. E. The Power of Snails.

One day by way of experiment I harnessed two common garden snails to a toy gun carriage to see if they could pull it along, says a writer in a London magazine. Although the gun carriage was a heavy leaden one, the snails pulled it so easily that I loaded the body of the carriage with small shot. The snails, however, were more than equal to the task. Anxious to test their powers still further, I attached a toy cannon (made of lead and brass) behind the gun carriage, but the snails and their additional load moved on once again with the same apparent ease. Out of curiosity I decided to weigh the cannon, gun carriage and shot and to my great surprise found the total weight to be almost one pound. I venture to think this a very good load for two snails to manage.

JUDGE K. M. LANDIS, BEFORE WHOM
MEAT CASE WAS BROUGHT.

Judge Keneas M. Landis, before whom the case of the government against the great meat packing concerns was brought in Chicago, is the jurist who passed out before the public in 1907 by imposing a fine of \$20,240,000 on the Standard Oil company. The big fine has since then been declared illegal by a higher court. Judge Landis has been judge of the United States district court for the northern district of Illinois since March 28, 1905. He is an Ohio man by birth and an Indianan by training and is a brother of former Congressman Charles B. Landis and Frederick Landis of Indiana. Judge Landis was admitted to the bar in 1891 and practiced in Chicago from that time until his appointment to the federal bench save for two years when he was private secretary to Secretary of State Gresham.

A Surprise For the Hunters.
"If the lair of a leopard is known," says a writer in the Wide World Magazine, "stones will generally dislodge the lurker. I recall one occasion when a leopard was supposed to be located in a cave near camp. The guns were phiced around in positions commanding the exit, and a few stones were then thrown in. There was no result at first, but as more and larger stones crashed in there came a faint humming and then a roar like the sea under the cliffs. In a moment the air above the cave's entrance grew dark with bees! As one man sportsman and gun bearers fled for the camp. A few were slightly stung before they could reach their tents and pull the flaps over the entrances, which the bees for some time besieged. Incredible though it may sound, it is the truth that, although the camp was full of native servants, horses, etc., none of those who had remained behind and were not concerned in the attack on the bees' cave were stung. It was a considerable time before the bees beat a retreat, but during all the time that they stayed in the camp it was the tents of their aggressors exclusively round which they angrily buzzed."

The Crab In the Whale's Ear.
When the whales were still frequent along the lines of passenger travel across the Atlantic nothing was more common than to see the great beasts hurling their bulk clean out of the waves and, after a flight through the air, falling back into the sea with an enormous splash, a spectacle never failing of interest to the ocean tourist, but not due to any sportive disposition on the part of the leviathan of the deep--quite the contrary. The breaching of the whale is no fun for the beast. It is a frantic effort to rid himself of the torture of earache. There is a marine crustacean which pesters whales to the verge of endurance, and there seems reason to believe that some whales have been driven insane by these tiny parasites. It is a crab of about the size of that which is found in the oyster. When it lodges on the whale it infests the inner surface of the eyelids and the ear. By swift rushes on the surface the whale is able to clear its eyes, but the crab in the inner ear cannot be dislodged by any such means.

"Ox Eyes" For Two.
The drawback of fancy names for dishes is their tendency to be deficient in prosaic information. Would you order "angels on horseback," for instance, if you did not know what sort of thing it was? And to appeal to the waiter to interpret is humiliating. A correspondent recalls his own fate in the matter of "ochsenaugen" (ox eyes). Having repeatedly seen them on the menu among the pudding class during a tour in Germany, he and his wife eventually ordered them. "Two portions?" asked the woman waiter. "Oh, yes, two portions." It proved that two portions of ox eyes meant six fried eggs--as the final course of a hearty meal. And, as the wife had the moral courage to refuse to eat more than one, the cowardly husband, unwilling to give away that he had not known what he was ordering, had to worry down the five others.

A Startling Hat.
A lady's hat which would no doubt create as great a sensation today as it did at the time of its first appearance in 1352 was that worn by Blanche de Bourbon, queen of Castile, wife of Peter the Cruel. It cost \$35 and was made in Paris. The hat itself was composed of de chypre and relieved with great pearls, garnets and enamel work. Children, carved in the whitest of ivory, were depicted picking acorns of pearls from the oak and scattering them to the swine below. Birds were singing in the trees, and at the foot were bees stealing honey from the flowers springing up from the verdure.

Fresh Air For Sleeping.
A person requires twenty cubic inches of fresh air at each respiration, or on an average of 400 per minute, and in ten hours' sleep he consumes 130 cubic feet of air. The air of a bedroom ten feet square, having its doors and windows closed and occupied by one person, would become unfit for respiration in four hours. In the case of two occupants the time would, of course, be reduced to two hours.--New York American.

Points on the Market.
Old Gentleman (in broker's office)--Now, what do you think I might buy? Broker--You ought to have some Chartered. Old Gentleman--Why, I was only thinking coming up in the train that I ought to sell some Chartered. Broker (who wants a commission)--Well, that's not a bad idea, either.--London Financial Times.

A Dried Up Spring.
Editor--I understand, Mr. Pennyman, that you have married. Pennyman (sadly)--Yes. Editor--That will perhaps infuse new life in your mother-in-law jokes, eh? Pennyman (more sadly)--Alas, that is a thing of the past. The mother-in-law is no longer a joke with me.--Brooklyn Life.

An Appreciated Kindness.
"Mr. Grovell," began the visitor, "I don't want to disturb you." "Very considerate of you to come in here just to tell me that," said the busy man. "I appreciate it, sir. Good day!"--New York Journal.

Easy Money.
Hard Featured Woman--So you had money once, had you? May I ask you how you made your first thousand dollars? Tuffold Knutt (wiping his eye with his coat sleeve)--Ma'am, I dreamt it!--Chicago Tribune.

The wrong insertion of the notice caused considerable confusion, but it demonstrated to the promoters of the lyceum course that the Daily News is read by most everybody.

Early Automobiles.
During the fifteenth and sixteenth centuries, marking the ages when mechanical genius was just awakening, there were attempts to drive vehicles other than by animal means. Indeed, as early as 1450 there was a curious monocycle automobile built for Emperor Maximilian of Germany propelled like a treadwheel by four men treading on the inside of a great rim and steered by means of a handle connected to the axle held by a man walking beside it. The seat rested on the axle and was balanced by weights to keep it upright. There was another automobile constructed that same year, driven by a crank, which was connected with a drive wheel. A man walked alongside and turned the crank by means of a long handle. Two centuries later there was an automobile constructed at Nuremberg which traveled about Germany that year and which was driven by great springs wound up at short intervals.—Popular Mechanics.

His Idea of Economy.
"It's all very well for you to preach economy," said his wife, "but I notice whenever I cut down expenses that you smoke better cigars and spend more money for your own pleasure than at any other time."
"Well, confound it, what do you suppose I want you to economize for, anyway?"—Chicago Record-Herald.

NOTICE
To the citizens of Daytona: As I am desirous of filling the office of school trustee, I will appreciate your support, by ballot, at the coming municipal election. d2-7t
